

Corporate Philosophy

For People, Society and the Earth

— Thoughts underlying our Corporate Philosophy —

As a diversified materials manufacturer, the Mitsubishi Materials Group has strived to work “For People, Society and the Earth” through the supply of basic materials indispensable to the world.

We have enhanced the research and development of our unique and distinctive technologies and products in order to respond to the increasingly diversified global needs that require superior products, systems and services. Today, the scope of our operations is extensive, ranging from the manufacture of resources and basic materials to high-performance processed products and new materials, as well as the provision of systems, engineering services and resource recycling. In our operations we endeavor to make the most efficient use of resources and raw materials. We take a circular economy approach in order to contribute to a sustainable world.

Through our fair business operations we will continue to promote materials* innovation that addresses the emerging global challenges of technical innovation, information technology advancement, globalization and enhanced environmental awareness. We strive to meet the expectations of our stakeholders, including our shareholders, and contribute to the sustainable development of society.

* “Materials” include all kinds of value that the Mitsubishi Materials Group is capable of offering, including raw materials, products, services, solutions and human resources.
